| <input type="checkbox"/> Our Daughter's Wedding | <input type="checkbox"/> Our Children's Wedding |
| <input type="checkbox"/> My Daughter's Wedding | <input type="checkbox"/> Wedding Memories |
| <input type="checkbox"/> Our Son's Wedding | |

Designing Your Album

If you have purchased a wedding album from us, you have one year from the date of your wedding to give us the information we need to create your album.

Start by copying the files from your Photo CD to a Wedding folder on your C or D drive. Then make a folder called Album. Copy those photos which you think may look good in your album into the Album folder. Then make subfolders for each album page.

Look over your pictures for one or more that would look good on the first page of your album. You want pictures that will introduce the two of you. Examples would be a picture at the altar taken after the ceremony. Or you can use a picture of the front of the church, or a portrait of each of you.

Copy the photo files into the subfolder for the first album page. We do not charge to put your names and the date of the wedding on this first album page. If you would like to do this, let us know how you would like it to read.

Now look for one or more pictures for the last page of your album. Most people show pictures that reflect your love for each other. On your wedding day, the photographer will have taken romantic pictures of the bride and groom. One or more of these pictures is often perfect for the last page of your album. The ring shot is another good choice for the last page.

The rest of the album usually shows the sequence of events of your wedding day. At this point your task is to select which ones you want on each page and put them into the subfolders.

If any of your guests have given you photos that they took at your wedding, we can put these into your album. Please email or bring us a CD of the digital file.

Many brides like to have photos of their guests taken at their wedding. You can have a maximum of 16 photos per page.

Backgrounds

Behind and around the pictures on an album page is a background, which is either a solid color, a design or an image. If you use an image as a background don't crowd the page with pictures covering the interesting parts of the photo.

Here is a list of some of the backgrounds we suggest:

- A.....Black (always a good choice)
- B.....White
- C.....Diffused Green design
- D.....Grey Marble

E.....Blue sky
F.....Gold foil
G.....Silver foil
H.....Sandstone
J.....Red Satin
K.....Your Bouquet
M.....Our Bouquet #1 (diffused purple flowers)
N.....Our Bouquet #2 (pastels of pink, orange and yellow)
O.....One of your photos printed lightly (not full density)
P.....A photo printed lightly in Black and White
Q.....A photo printed lightly in Sepia (like an old black and white photo that has faded to brown)
R.....Multicolored
S.....Your choice not on the list

A "Panorama" is a set of facing pages with one continuous horizontal shot, either by itself or as a background for other pictures. This makes an eye-catching inclusion into an album.

Other Options

We can make a photo black and white or colorize the photo in which it is black and white with a particular area, such as the bouquet in color.

Feel free to make notes of what you want.

The Layout

Use Microsoft Word to layout each page of your album. Word lets you resize each photo so that you can get an overall sense of how the page is coming together.

On the Menu Bar click on:

Insert
Picture
From File

Right click on Photo:

Format Picture
Layout Tab
Tight (located on the sample picture of dog)
Make sure Other is selected.

After everything is completed please email me – in a single column – the complete list of all the files which will go into your album. Send the email to mgk@cox.net. Burn your subfolders onto a CD and bring to us. Also, bring in your paperwork showing which

pictures you want on each page, along with any notes about arranging the pictures, which background for each page, any special effects, etc.

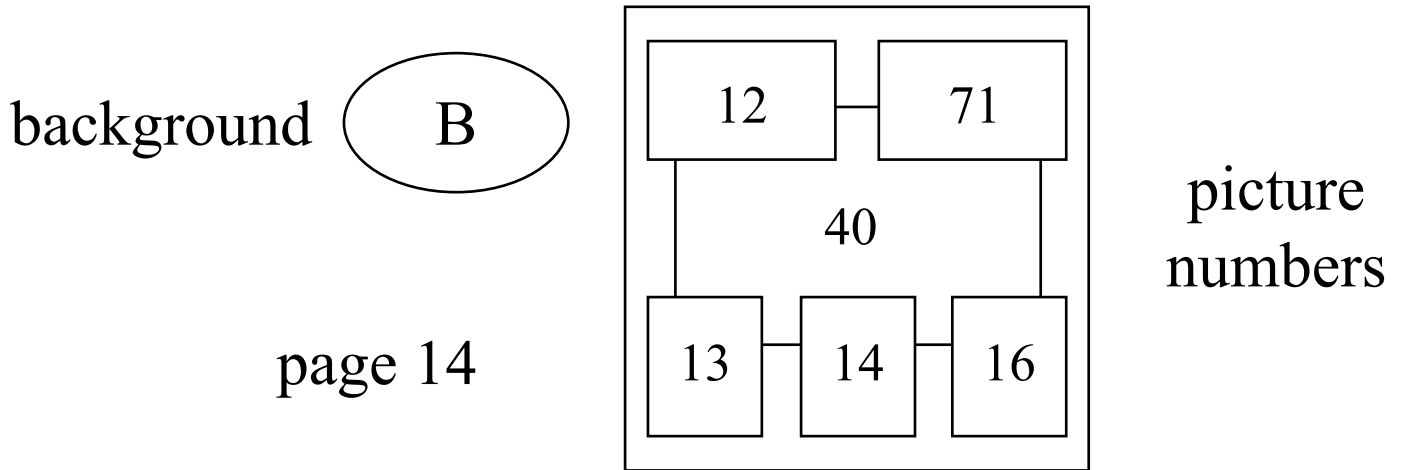

Be sure to fill in the page in your paperwork telling us which style album you want and what title you would like printed on the front cover. This page is titled "Bride and Groom's Album". Be sure this page is fully filled out. Be sure to also bring in the Cover Page which states your package choice and your phone numbers.

When we get your album put together on the computer, we will invite you back to look it over and see if you want to make any changes. We do this before we print finished album pages.

If you need more space you can always upgrade your album by either adding more pages or paying for a larger album, (going from a 10x10 to a 12x12).

Good luck on working with us to create a beautiful album that you and your family will treasure.

Please indicate your background choice for each album page in the oval to the left of each page layout.

Background Choices

- A. Black
- B. White
- C. Diffused Green Design
- D. Marble
- E. Blue Sky
- F. Gold Foil
